Those marked with a (\*) are my introductions. All are field grown, and No. 1 of the grade specified. Do not compare my plants with those many firms send.

#### NARCISSUS—

Poeticus Pheasants Eye No. 1 1.75  
per 1000, \$15.00.  
Planting stock all below No. 1 1.10  
per 1000, \$10.00.

Ornatus and Pheasant Eye Mixed planting stock 1.10  
They have been inspected and found free from insects and disease according to Federal specifications.

#### RASPBERRY PLANTS—

Latham No. 1 3.00  
per 1000, \$25.00.  
No. 2 sold out.

All strictly No. 1 plants. Inspected and no mosaic was found.

I take great pains in keeping all my stock true, as a visit here will show you, and I extend a welcome to all who are interested to visit me during the blooming season. Here you can see a Mugho Pine hedge that has been planted 31 years, that is not 3 feet high; a weeping form of the Colorado Blue Spruce over 35 feet high; a Rhododendron that has bloomed for 20 years; 150 varieties of glads; besides many objects of interest, and acres of beautiful flowers.

**IMPORTANT**—Columbine, Delphinium, and Hemerocallis can be planted any time after the first of August. The best time to plant Iris is soon after blooming. Oriental Poppies must be planted in August for good results; if planted then, every plant will grow, and bloom next season.

We accept all orders on condition that they shall be void should injury befall our stock from frost, fire or other causes over which we have no control.

Stock will be well graded and fully up to the grade specified.

Packing at cost of material used; 5 at 10, 25 at 100, 250 at 1000 rates.

To responsible parties, Dec. 1, 1927 payment.

WILLIS E. FRYER, Mantorville, Minnesota
